## \$ whoami

My career interests are in creating and improving **Open Source solutions** to common problems, **public speaking** on interesting topics, and **automating** the boring stuff with *security*, *scalability*, and *efficiency* in mind. I love talking about:

**Server-side Dev:** Linux (Debian, Ubuntu, RedHat, Fedora, Amazon), Rust, Golang, Python.  
**DevOps:** Terraform, Nomad, Packer, Kubernetes, Docker, AWS, Digital Ocean, Git & GitHub.  
**Open Source:** Publishing general purpose tools, improve existing code-bases, document upstream projects.  
**Leadership:** Linux Users Group president, taught DevOps BootCamp, SCALE conference speaker.
